From April 1st 2016 Kilometre Charging for heavy goods vehicles in Belgium

From April 1st 2016, all heavy goods vehicles of more than 3.5 tonnes must have a working **On Board Unit (OBU)** on board in Belgium. An OBU is only required if the tractor unit has a gross vehicle weight (GVW) of over 3.5 tonnes. The point of reference for the definition of the weight that needs to be registered in the system is the Gross Combination Weight Rating (GCWR). More information can be found under downloads/vehicle documents.

You can order OBUs on the **Road User Portal**, via the service points or via a **partner** of Satelllic: Aral/BP, AS24, Brandstoffen Maes, DATS 24, DKV, ENI/AGIP, euroShell, eurotoll, Eurowag, E100, Febetra, Gabriels, Global Star, LogPay, Octa+, OMV, PowerOil, Plose, Ressa, Statoil, SVG, TLV, Total, UTA, Vialtis, ZMPD.
